SUGA CANDY.

Improvements in the Manufacture of Confectionery.

The candy trade is a fruitful subject of discussion. To show the improvement that has been effected in this branch of business and enumerate the varieties of candies and the different methods of preparation would tire the patients of the ordinary reader. The tendency all the time is to increase the variety and prepare the sugared dainties in new and more attractive forms. The demand is for better candy, that is, purer and less injurious. Now, in all the best candy manufactories there is little if anything of an injurious nature that enters into the composition of candy. They are all willing to have their candy analyzed. In some fine candies the color green often deters purchasers from buying, but this color is derived from the pistachio almond, which is imported, and is as healthful as the white one. The best confectioners use many of these green almonds.

The great candy center of the country is Philadelphia. There the choicest and best candies are manufactured. New York comes next in point of quality and quantity. Boston is also growing in importance in this respect. The best sugared almonds are to be obtained in Philadelphia, and are worth 60 cents per pound. Among the delicacies in the market at present may be mentioned papillotes from France with lemon and vanilla flavoring. It has been sold here since Christmas, and comes in water form. It forms a kind of caramel, and the glazed candy is filled with nuts. Pine-apple rolls are another favorite, consisting of a piece of pineapple in a cream roll. This is of recent date, also.

"St. Nick's chocolates" are new, and are manufactured in Philadelphia. The interior consists of ground nuts and a chocolate preparation surrounded by a layer of chocolate. Chocolate maracanes are made of chocolate, vanilla, and a small proportion of ground nuts. Chocolatina is a compound of chocolate, consisting of a ball coated with cream with an outside layer of chocolate. A great item of the candy trade has been the gum drop. There is always a sale for gum drops. Pure drops are made of gum arabic and sugar, and sell for 50 cents per pound. Inferior gum drops contain gelatine and glucose. These sell anywhere from 15 to 40 cents per pound.

The popularity of the gum drop is doubtless due to the fact that it can be kept in the mouth long and chewed upon, which accounts also for the demand for caramels, marsh mallow drops and molasses candy. The last named is always in demand, and is one of the oldest kinds of candies in existence. It will probably always be in demand so long as candies are made and sold. Good rock candy is always sought for. Pure rock candy is crystallized sugar. The best is always on a string, and when held up to the light is almost as clear as glass. The cheap rock candy consists of the drippings from the former. Rock candy is made in small kettles. A string is drawn across them and the candy is made by dropping pure sugar syrup on the strings. The syrup is hot, and when it cools it forms the rock candy as we see it. All of it, however, does not adhere to the string. That which settles on the bottom and edges of the kettle is the settlings, and contains some impurities. This is broken up and sold for rock candy at reduced prices. Broken candy is generally in good request. For peppermint and wintergreen drops there is always a sale, and they are about as staple an article now as there is in the market.

Years ago coconut cakes were a great favorite, especially with children. They consisted of coconut cut up and mixed with sugar, of white, red and brown color, being flat and of circular form, and a little larger than a silver dollar. They are sold in the market now, but not to such an extent as in years gone by. Coconut still enters very largely into the manufacture of candy, but in different forms. French nougats have come into prominence in the past few years. They consist of marshmallow paste and almonds. They are sold in various forms and some of them are coated with chocolate. For stick candy, except molasses candy, the city trade has decreased. All candies are cheaper than they were five or six years ago. 'Tis so, and now retail for 60 cents per pound formerly brought 75 cents. They can be manufactured more cheaply, for sugar and chocolate and other articles which enter into their composition can be obtained at a less price.—[Providence Journal.]

Absent Mindedness.

A Troy lawyer is charged with a curious fit of absent mindedness. He was to make a call with his wife one evening. He withdrew to his room to change his clothes, and, being gone an unusually long time, his wife went to see what detained him and found him in bed. He had taken on of his business suit, forgotten what he was going to do, and, from one of habit, probably, retired to the night.

Read the Answer in the Skies.

Rain follows two or three consecutive hoar frosts. A shower of hail in the daytime is usually followed by frost at night. A tinted halo around the sun at setting occurs in long-continued rainy weather.

Red-fing'd clouds, high up at evening, are followed by wind, occasionally by rain.

If, on a fine day, the dust suddenly rises in a revolving, spiral column, rain is near.

Rainbows are unreliable, except they occur in the morning, when rain may be expected.

A dazzling metallic luster on foliage, during a cloudless day in summer, precedes a change.

Sun-dogs and fragments of prismatic colors during the day show continued unsettled weather.

No dew in the morning is mostly followed by rain, and a heavy dew in the evening by a fine day.

A halo around the moon, especially if some distance from it, is a sure indication of downfall at hand.

If after rain drops of water still hang on the branches and twigs and to window frames the rain will return, but if they fall and the wood-work dries, fine weather is at hand.

Stones turn damp before wet; at the same time it must be observed that the fact of their doing so does not invariably indicate rain, for they will do so occasionally before heat.

If the sky be a dull gray, and the sun rises clear, gradually dispersing the vapors, it will be fine. If he retires behind the clouds, and there are reddish streaks about, it will rain.

Often a beautiful sunset will be followed by a bad day. After a rainy day, suddenly at sunset in the far west will appear a magnificent streak of crimson (not copper colored)—this generally foretells a fine day.

Mists at evening over low-lying ground or near a river precede fine and warm days. If a mist in the morning clears off as the sun gets higher, it will be fine, but if it settles down again after lifting a little, rain is at hand.

The man who is out-of-doors at sunrise can form a pretty accurate opinion of what the day is to be. If just before sunrise the sky, especially in the west, is suffused with red, rain generally follows in the course of the day. In winter, often snow.

Huge piled-up masses of white cloud in a blue sky, during winter, indicate snow or hail. If small, dark clouds float below the upper ones, moving faster than they, rain will follow, as it will, in the morning, low hanging, pale brown.

Like clouds are floating about.

saved His Life.

D. I. Wilcoxson, of Horse Cave, Ky., says he was, for many years, badly afflicted with phthisis, also diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from the first bottle, and after taking six bottles, was entirely cured, and had gained in flesh 18 pounds. Says he positively believes he would have died had it not been for the relief afforded by Electric Bitters. Sold at 50 cents a bottle by S. J. Hodgkinson & Co.

THURSDAY.....APRIL 14, 1887

The presence of German-Americans in the Fatherland is regarded with disfavor. At least a paragraph appeared in a Berlin paper last Tuesday that is calculated to cause such a belief. It gives notice, first, that by a decision of the German Government, inferior administrative authorities will in future take no notice of complaints regarding the expulsion from Germany of Germans who lost their German citizenship by a five years' residence in other countries, together with the acquisition of some foreign citizenship; second, that such denationalized Germans are subject to immediate expulsion from Germany, unless they have re-acquired German citizenship; third, that the law of 1870, which compels the Judges to grant German citizenship to Germans who, by a long residence in foreign countries, have lost their rights as Germans, does not apply to those who, during their residence abroad, have obtained citizenship from some foreign nation. In special cases such persons may, at the discretion of German authorities, regain their German rights. But it is plainly the intention of this administrative decision to force attention to the liability of expulsion from Germany of denationalized Germans who attempt to return to Germany regardless of their intention or declaration to again become German subjects.

A man's first duties are to his family and himself. The State should not make those primary duties more difficult by taxing any of the necessities of life. The necessity for the major portion of the enormous revenue needed by government arises from vice and folly in their various forms. The causes of taxation should bear the burden of taxation. Says John Philip Phillips in the *American Magazine*:

All public revenues should be drawn from indirect taxes upon conduct and conditions more or less inimical to the general welfare. Luxuries, vices, follies, excessive wealth, and all conduct, either of citizens or foreigners, which tends to generate evil and injustice, should be taxed as far as practicable. Such a system of taxation would necessarily have a correlative effect, viz., the encouragement of virtuous acts by freeing them from public burdens.

Instead of a policy that would make it impossible for any individual to ever become the absolute owner of a homestead—that would make mankind more nomadic and lessen their interest in and affection for their homes—the State should encourage every man to get a piece of ground and a home of his own. To this end, all homesteads, to a limited amount of value, should be exempt both from taxation and from attachments for debt. The tendency of such a measure would be silently to prevent and cure the evil of a monopoly of land by a comparatively few, as well as the evil of a tenant population with little interest in the soil upon which their toil and lives are spent.

A cheerful feeling prevails among business men and others of California, owing to the continued showers of rain throughout the State. A bountiful yield of grain is now insured, while the fruit, wine and wool crops promise to be unusually large.

The German Government seems to fear that the French are going to do something to "aggravate" Germany. Its last cause of alarm was the drilling of a few cavalry soldiers in the eastern part of France.

A Large Reduction.

PARIS, April 14.
Temps says England has assured France that she has no intention of making any attack on the Haytian Island. *Le Temps* adds that she has reduced the indemnity demanded of Hayti to \$100,000, and the French Admiral who was ordered to proceed to Hayti with his force, in order to protect Europeans, has been ordered to leave Haytian waters.

Manning Improving.

WASHINGTON, April 14.

A letter has been received from Treasurer Jordan, who is now in Paris, saying that he will visit London about the 15th instant, and that he expects to sail for New York on the 21st instant. He says Ex-Secretary Manning arrived in England in much better health than when he left New York, and that his visit to Bourne-mouth was arranged before his departure for this country, and was not as has been generally supposed, the result of a relapse or anything of the kind. It is thought now that Jordan's successor as Treasurer will not be appointed until after his return to Washington early in May.

Picked Up at Sea.

NEW YORK, April 14.

The steamer Flanborough from Bermuda brought the Captain, 12 seamen and Mrs. Wanamaker, a lady passenger of the steamer Saragossa, abandoned at sea. The Saragossa left Baltimore for Port Antonio on the 18th ult., and was abandoned on the morning of the 22d in a severe gale and sank soon afterward. They were picked up exhausted, after being in a life boat for 27 hours, by the bark Bachelor, and were transferred to a tug boat which landed them at Bermuda, whence they took passage on the Flanborough.

A Brick-Makers' Strike.

PHILADELPHIA, April 14.

A proposition was urged upon the brick manufacturers of this city last night, that they should employ Knights of Labor in their yard. This was refused, and a resolution was adopted that unless the present difficulties between the Knights of Labor and manufacturers is settled by Saturday, the manufacture of bricks will cease on that date. This would result in throwing 5,000 men out of employment.

A Missing Steamer Spoken.

NEW YORK, April 14.

The overdue steamship Salerno, of the Wilson line, is reported by a cablegram from London this morning to have been spoken twice during the last week; once on April 4th, all well on board. On April 7th she was spoken with again; at that time she was proceeding under sail. Her position on April 7th, makes her about 1,200 miles from Liverpool, her destined port.

A Construction Train Wrecked.

WHEELING, W. Va., April 14.

A construction train on the Ohio River Railroad jumped the track at Willow Grove, near Parkersburg, last night, wrecking the engine and nine cars, killing three men and wounding eight or nine others, several of them fatally. From four to six laborers were badly injured, but none of them, it is said, will die. The engine struck an obstruction while running at full speed.

The Chicagoans Win.

ST. LOUIS, April 13.

The St. Louis Club went into the champion game badly handicapped. Carruthers and Foutz were both disabled, and Boile was put in to pitch. After one disastrous inning he changed places with Foutz, and the latter pitched a strong game, despite his lame arm. Fully 8,000 people were present. Score: St. Louis, 3; Chicago, 6.

Want Union Rates.

NEW YORK, April 14.

The Longshoremen at Havemeyers & Elder's sugar house in Williamsburg, struck to-day. The most of them are Italians and non-union men. They struck for the union rate of forty cents an hour.

Threaten to Strike.

DETROIT, April 14.

Nine hundred stove moulders have decided to strike if the St. Louis pattern is to be used in the Detroit foundries. If the strike takes place, it will throw 7,000 men and boys out of employment.

No More Commissions.

BALTIMORE, April 14.

The Baltimore & Ohio railroad company has instructed all of its agents not to sell through tickets over roads which will not join in a combination to pay no commissions to agents.

Woman Suffrage in Pennsylvania

HARRISBURG, Pa., April 13.

The Senate to-day finally passed a joint resolution proposing a woman's suffrage constitutional amendment. Yeas 27, nays 16. The ladies' gallery was crowded during the vote.

She Skips Again.

BOSTON, April 14.

The *Herald* states that Mrs. Sarah E. Howe, of the Women's Bank fame, has absconded with \$50,000 of her depositors' money. Ever since her re-

lease from confinement on the charge of swindling the depositors in her bank, she has continued the business of receiving deposits of money from women, paying, or promising to pay an exceedingly high rate of interest thereon. A lady from Augusta, Maine, called at Mrs. Howe's house last evening for the purpose of collecting interest on a sum of money deposited with her. She was told by a man who came to the door, that Mrs. Howe had skipped and taken \$50,000. A warrant has been issued for her arrest and the police are searching for her.

Not in Europe.

WASHINGTON, April 14.

A *Sun's* Washington special says the only member of the Fifteen Congress who is not drawing his salary, is Woodburn, Republican member from Nevada. Woodburn, some time ago, departed for Europe and made arrangements with the Sergeant-at-Arms office to have his draft honored, but up to date, his certificate of election has not been received at the Clerk's office. This of course prevents him from drawing his salary. Woodburn is now traveling on the continent in ignorance of the dishonor of his draft. His certificate of election was left at Woodburn's home in Nevada. [The *Sun* is at fault relative to Mr. Woodburn's whereabouts, as he went through Reno on the 2d inst. on his way to San Francisco—GAZETTE.]

FOREIGN DISPATCHES

Some Further Particulars.

LONDON, April 14.

Further particulars of the loss near Dieppe of the New Haven and Dieppe packet, Victoria, show that the vessel struck the rocks amidstships. The passengers immediately rushed to the stern, which through the downward lift of the bow was buoyed up by the deep water on that side of the rocks. A terrible scene ensued then while endeavors were being made to float the life boats, which were seriously interfered with by the strong swell of the sea. At last when a boat was ready to be lowered, and 15 men and women embarked in it, a lady's shawl became entangled in the pulley of the storn davit and caused the boat to descend to the sea bow foremost, and most of the occupants were thrown out and drowned. Two ladies jumped from the deck of the steamer into the boat when it reached the water, and overturned it. The other boats were then seriously lashed and succeeded in reaching Dieppe, rescuing on the way, with boat hooks, two persons who had been swept out to sea.

Cheers and Hisses.

LONDON, April 14.

Chamberlain, while traveling to Ayr, was met at Killmarneock station yesterday by a crowd who insisted that he should make a speech. In complying with their request, Chamberlain said that for the first time in its history the Labor party was allied with men whose hands were stained with blood, and was assisting them to carry out an obstructive policy in Parliament. The Unionist views regarding Ireland are unaltered. Chamberlain was frequently interrupted in the course of his remarks, the hisses of his opponents exceeding the cheers of his supporters.

A Manufacturing Proposition.

DUBLIN, April 14.

Parnell, Mitchell, Davitt and a number of other prominent Irishmen are actively engaged in the work of promoting an organization of Irish woolen manufacturing and exporting company, with a capital of half a million dollars. Davitt, while in the United States recently, received many promises of assistance from American importers of wools.

WESTERN DISPATCHES

Fear the Penalties.

SAN FRANCISCO, April 14.

T. H. Goodman, general passenger agent of the Central Pacific Co., has addressed a letter to J. G. McCall, the Pacific Coast agent of the Erie railway notifying him that the Central Pacific company would not allow him to continue the business of sending emigrant excursion parties East over their road. Mr. Goodman assigns as the reason for this action, that McCall has been furnishing extra privileges in excess of the accommodations to such passengers, and that this would make the Central Pacific liable to penalties under the Interstate Commerce law, which provides that no undue preference or advantage shall be given to any person.

Swamp Land Frauds.

PORTLAND, ORE., April 14.

Yesterday the U. S. Grand Jury returned indictments against Henry C. Owens, W. H. Barnhart, and R. V. Ankeny for defrauding the Government in the matter of swamp lands in Southeastern Oregon. These alleged swamp-land frauds have been the subject of scandal for the past six years. Owens and Barnhart have become independently wealthy in these purchases, and Ankeny was Government inspector, who is charged with collusion.

Judge Murphy this morning denied the motion for a new trial in the case of Alexander Goldenson, convicted of the murder of the school girl, Missie Kelly, and sentenced Goldenson to be hanged on June 10th.

O'Brien Acquitted.

SAN FRANCISCO, April 13.

J. O'Brien, ex-Assistant Secretary of the Harbor Commissioners, was this afternoon acquitted of the charge brought against him in connection with harbor frauds. O'Brien has been tried several times before.

Great Reduction.

I am making the best suits of English and French goods, for \$20, \$25, \$30, \$40, \$50 and \$60. I have a number of suits for \$8, \$9, \$10, \$11, \$12 and \$14. Should have a reasonable offer before the first of May, I will sell out my whole tailoring business. [aptnl] F. KOLBER.

Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, plains and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and liver complaint are the direct causes of 75 per cent. of such maladies as biliousness, indigestion, sick headache, costiveness, nervous prostration, dizziness of the head, palpitation of the heart and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10cts. Try it. nov29yl

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure you get the genuine. Because he can make more profit, he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottle free at S. J. Hodgkinson & Co.'s drug store.

Notice!

Manning & Jaques have been commissioned by the Reno Gas Co., as a competent firm to do their gas-fitting, and the company would recommend parties having work of the above character to do, to employ only the best workman, thereby saving much annoyance and expense. LOCAL NEWS.

Happenings of the Day in Reno and Vicinity.

Getting Crowded Houses.
Judging from the sale of seats in Virginia City for the Carleton Opera Company performances there, the combination will be greeted by crowded houses during its entire engagement of three nights and a matinee.

The production of the "Mikado" here on Saturday evening will, it is said, attract quite a crowd over from Carson.

Looks Promising.

From all indications the coming season will be a busy one for carpenters and builders. Already the sound of the hammer and saw is heard in several portions of the town, and when lumber stocks become heavier and prices become less stiff, there will, in all probability, be a rush of work in the building line.

Stock Shipments.

To-day W. H. Hope shipped to E. & H. Moffatt, San Francisco, 21 cars of beef cattle, and 11 cars more will be shipped this evening to Hayes & Co., same place.

A Big Opera Troupe.

The National Opera Company last evening, after having concluded its grand festival in the Exposition Building at Omaha, left in two special trains direct for San Francisco, and will probably pass through Reno Saturday afternoon. It takes 24 cars to transport this immense organization, bag and baggage—six Pullman palace sleepers, five day coaches and 14 baggage cars. The instruments of the Thomas Orchestra are by no means an unimportant part of the transportation. The company, which in numbers and personnel will be exactly the same as during the recent successful season at the Metropolitan Opera-house, New York, numbers 305 persons.

Fatal Railroad Accident.

A Los Angeles dispatch of the 13th inst says: A frightful accident occurred about 5 o'clock last evening near the Los Angeles and San Gabriel Valley Railroad depot. A freight train was backing up to the bridge and ran into a carriage containing Ernest A. Cox, a member of the firm of Russell, Cox & Brandt, his wife and Miss Augusta Winstanley, of Tulare. Mrs. Cox was instantly killed, her head being crushed and her neck broken. Miss Winstanley was injured internally and her spine was also hurt. The injuries are probably not fatal. Mr. Cox was considerably bruised. The carriage was knocked to pieces, but the horse escaped.

Fine Elk.

H. A. Clawson, of the Depot Hotel, Ogden, was in town yesterday and left on last evening's express train for California. While in Colorado recently Mr. Clawson met his old friend, Colonel Frank Osbiston, who presented him with two fine elk—a bull and a cow—with the understanding that he would take good care of and not dispose of them. They were forwarded to the Humboldt House by Mr. Clawson, to be kept there. Mr. Clawson will take charge of the place on June 1st. The bull weighs 650 and the cow 510 pounds. They are said to be beauties, and are admired greatly by overland passengers.

Applicable to Nevada.

Says the Denver Range Journal: The value of alfalfa has been so generally demonstrated throughout Colorado that experimenting may be said to have reached an end. It will fatten all kinds of stock, and can be grown wherever land is subject to irrigation. Many thousands of acres will be sown this year, and we believe that the reservoir system will be resorted to for the purpose of storing water in localities where running streams are not available, and that in this way a great deal of land will be rendered profitable that is now practically worthless.

Remarkably Well Preserved.

The Virginia Chronicle of the 13th instant says: The remains of M. F. Walsh were shipped to Butte City, Montana, by rail last evening. The metallic casket containing them was opened yesterday and the body found in a remarkable state of preservation. Although dead for eight years the features of deceased were readily recognized by those who knew him in life.

Turned Over to Uncle Sam.

George Ham and Henry Stephens indicted by the Grand Jury of Eureka county for robbing the railroad and express agent at Palisade, have been turned over to the United States authorities for robbing the U. S. Mail at the same time.

A Change of Proprietors.

The Winnemucca Silver State says that Harry Clawson, late of the railroad house at Ogden, will take charge of the Humboldt House on the first of June. He has ordered two fine Rocky Mountain Elk for the park.

Will YOU SUFFER with Dyspepsia and liver complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale at Osburn & Shoemaker.

PERSONAL.

Dr. J. P. Porter, of this town, is in Truckee.

Theodore Winters went below last evening.

D. S. Gullatin left last evening for Sacramento.

Hon. T. B. Riekey returned this morning from the Bay.

J. M. Sanford, of Churchill county, who has been in town a day or two, left for home to-day.

R. H. Lindsay and Lieutenant-Governor Davis arrived from the West this morning.

G. W. Grayson, the Oakland butcher, arrived from below on this morning's express.

P. F. Scott, the Central Pacific bridge builder, arrived from below on this morning's overland.

John Slavan, beef buyer for Grayson, Owen & Co., Oakland, went to Churchill county this morning after the beef cattle of W. C. Grimes and Dave Weighman.

A Washington telegram of the 13th instant says: "Senator Stewart, of Nevada, is to leave to-morrow morning for Nevada and the Pacific Coast."

Cure of Kidney Disease.

NORTHEAST ERIE CO., PA., November 25, 1885.

I first used Alcock's Porous Plasters for a severe cold in my chest, some three years ago, and the relief was so prompt and decided that I concluded to further test them for a kidney trouble which I had had for many years; during this time my back ached almost constantly. I had to pass water very frequently, always feeling the bladder did not expel all its contents. I had always to get up in the night several times for this purpose, and there was always a reddish sediment that sank to the bottom. I had great pain under the shoulder blades; upon rising in the morning I was tired and unrefreshed; my bowels during this time were first very loose, then constipated. I bought a dozen of Alcock's Porous Plasters and put two low down on my back, two higher up, and one over my bladder and lower part of the stomach. In four weeks I felt better than in years before. The pain in my back completely passed away, and the other troubles were relieved. FRANK STRETINGER.

Knight's Attention.

The members of Amity Lodge No. 8, K. of P., are earnestly requested to attend their regular meeting Friday evening, April 15, at 8 o'clock sharp, in Armory Hall, for work in the First and Second Ranks, and the transaction of other important business.

April Showers.

Spring is coming in rather chilly, which should caution people to dress so as to shield against colds. F. Levy & Bro. have a few hand-knit and flannel under garments on hand which they are closing out at any price. Ladies will do well to look at them.

Simple and Sure.

The following prescription for dysentery, diarrhoea and all Summer complaints, is furnished by a prominent physician who used it in his practice for several years with uniform success. For adults, take one teaspoonful of Gilmore's Aromatic Wine and the same quantity of corn starch, after every discharge. For children, one teaspoonful of Gilmore's Aromatic Wine and the same quantity of corn starch. For infants under one year, ten drops of this Wine and enough corn starch to thicken it. This prescription is safe, sure and reliable. It does not leave the patient constipated, but restores to perfect health. Agent for Reno, W. Pinniger.

Uniform Bank Social Postponed.

Owing to the reception to be given by Mr. R. L. Fulton, the Uniform Rank, K. of P. Social Committee have decided to postpone their social dance, which was to have been given in Armory Hall this evening, until next Thursday, April 21st. The invitations issued for this evening will hold good until the next dance.

A Luxury and Necessity.

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of Figs. 50c. and \$1 bottles for sale by Wm. Pinniger, Reno, Nevada.

Ask for Fryer's Abietene Cough Balsam. Take no other. It is the most pleasant and best cough and lung remedy in the world. It contains no opium. Price, 75 cents. Sold by W. Pinniger, Reno, Nevada. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Notice!

Manning & Jacques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such service. A. A. EVANS, declat. Supt. Reno Water Co.

GREEN COUNTRY BOYS.

How a Drummer Got Taken in at Missouri, Tenn.

"Boys, it isn't always safe to gamble on the greenness of country chaps," remarked a drummer in the smoking car; "only last week I was in a little town down in Missouri, and the bar-room of the hotel was full of the gawks of the town. I worked several smart little snags for drinks that would not have caught a single sucker in the city, and had begun to think myself in luck. After awhile I heard a couple of fellows disputing about something, and I asked them what the row was about.

"Jim, here," says one, 'declares he kin go out and pace off a quarter of a mile, an' come in two feet of the actual measurement. He's a braggin', and kin never do it, stranger. I've just bet him \$5 he can't; will you hold the stakes?'

"I'd a good deal rather put up \$25 against him," says I; 'there's no man living can pace off so correctly as that.'

"I go you the \$25," says the fellow they call Jim, promptly pulling out his money; and of course I couldn't back out. So the \$50 was staked with the landlord, and we went out to see 'im pace. We hunted around and found a twenty-foot pole, and Jim went into the middle of the street in front of the hotel, and asked me which way he should go. I told him I didn't care, and after we had marked the spot, he started off, pacing very deliberately and with much caution. We followed him up with the pole, measuring after him. Pretty soon he stopped, stood still and waited for us, calling out that that was his quarter-mile limit. In a few minutes we had measured up to him, and what do you suppose the distance was? Thirteen hundred and twenty feet to an inch—exactly a quarter of a mile. I had lost as clear as a whistle, and I thought it the most wonderful feat I had ever witnessed. Before leaving town, however, I discovered how the thing was done. Jim was able to pace that quarter of a mile to an inch, because he had carefully measured it off with the same pole we had used, and marked the two ends in a way known only to himself. More than that, he had measured from a certain spot in front of the hotel in three directions, and was thus prepared to go any way his victim might select. The fellow who bet the \$5 with him was a roper-in, and I wasn't the first man they had made a sucker of, by a long shot. I'll have revenge on that town if I have to start up a skin fero layout or a drug store there, you see if I don't."—Chicago Herald.

The death of the second Lord Brougham, at the extreme old age of ninety-one, will relieve the pension list of a considerable charge. He was formerly a Master in Chancery, and when the office was abolished in 1852, was compensated by a full pension for life. This was £3,225 a year, so that the total amount paid to him by the country has been £103,200.—[Fall Mail Gazette.]

MUNN & CO. PATENTS
NEW YORK

After forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequalled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free. Patents obtained through Munn & Co. are noticed in the SCIENTIFIC AMERICAN, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published WEEKLY at \$3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and of every invention patented each week. Try it four months for one dollar. Send for new catalogues.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 37 Broadway, New York. Handbook about patents mailed free.

In Town and Hamlet

The seeds of intermittent and bilious remittent fever germinate and bear evil fruit. No community has altogether escaped it. In populous wards of large cities bad sewerage causes it, and in their suburbs stagnant pools in sunken lots breed it. There is at once a remedy and a means of prevention. Its name is Hostetter's Stomach Bitters, which is, without peradventure, the most potent antidote in existence to the malarial virus. Fortified with this incomparable, saving specific, miasmatic influences may be encountered with absolute impunity. Disorders of the stomach, liver and bowels, begotten by miasma-tainted water, or any other cause, succumb to the beneficent corrective named, and rheumatic, kidney and bladder troubles are surely removable by its use when it is given a persistent trial.
